

A detailed, black and white photograph of a motorcycle engine. The image is a close-up, focusing on the cooling fins and connecting rods. The cooling fins are arranged in a series of parallel, curved lines, creating a rhythmic pattern. The connecting rods are long, cylindrical metal bars that connect the pistons to the crankshaft. The lighting is dramatic, highlighting the metallic textures and the intricate details of the engine components. The background is a plain, light color, which makes the engine stand out.

Einst waren sie wie metallene Scheeflocken. Und flogen, flogen, flogen durch die **Luft**. Nicht wie ihre Geschwister, die immer am **Boden** ihren Dienst taten.
